### COLLABORATION AND PEER REVIEW:

Collaborative discussions and work on a group writing project involves discussions with students and/or discussions with members of the teaching staff and are a constructive part of the education process. In addition, collaboration is expected and required in the workplace for solving problems, encouraging creativity, and constructive critique of another's work. Individual writing assignments and presentations will require the student to complete their own work.

Peer review involves exchanging papers with another student in order to evaluate each other's work. The evaluation of another student's work is important, as it improves proofreading skills. Please do not write anything that is not appropriate for sharing with every classmate.

### INDIVIDUAL WRITING ASSIGNMENTS:

Writing assignments will be distributed in class and due the following class. Students are expected to turn in all assignments directly to the professor in hard copy format. In the event of an emergency, an email or fax submission will be accepted only with prior approval of the professor.

Unless otherwise specified, all business communications are to be typed, single-spaced with one-inch margins all around in 12 point font. Your name, assignment name/number and date should be placed on each assignment.

### GROUP WRITING ASSIGNMENT:

Working in a group is an important part of business communication. Students will be expected to participate actively and evenly with other group members. Points will be deducted for unresolved group conflict and uneven workloads between students. Some class time will be devoted to group work. There will be one group writing assignment in this course. This assignment is due on **THURSDAY, NOVEMBER 20 at 9:30am EST**. Specific guidelines for completion of this project will be distributed in class. A hard copy of this assignment is to be submitted with participation by each member of the group in the report.
