

Course Syllabus

Course Description	<p>This course focuses on the role of the nurse in assessing, planning, implementing and evaluating the effects of pharmacological agents used as therapeutic interventions for patients. The course will cover drug actions, classifications, applications of principles of drug administration including medication calculation and application of the nursing process and client teaching related to medication therapy. The course is intended to be an introduction to pharmacology as medication content is reinforced in every nursing course.</p> <hr/>
Required Texts	<p>Kee, J., & Hayes, E.R. (2003). <i>Pharmacology: A nursing process approach</i>. (5th ed.). Philadelphia: W.B. Saunders.</p> <p>Kee, J., & Hayes, E.R. (2003). <i>Study guide for: Pharmacology: A nursing process approach</i>. (5th ed.). Philadelphia: W.B. Saunders.</p> <p>Recommended reading:</p> <p>Castillo, M. & McCullough, W. (2002). <i>Calculating Drug Dosages</i>. Philadelphia: F.A. Davis.</p> <p>Deglin & Veglin (2003). <i>Davis Drug Guide for Nurses</i>. (8th edition). Philadelphia: F.A. Davis.</p> <hr/>
Course Objectives	<p>Upon successful completion of the course, the student will be able to:</p> <ul style="list-style-type: none"> • 6. Apply the nursing process to medication administration. • 1. Explain the classifications of pharmacological agents and their actions. • 5. Discuss the principles of safe medication administration. • 3. Demonstrate procedures of safe medication calculation and administration. • 2. Discuss the ethical, legal and cultural considerations of drug therapy. • 4. Define the phases of drug action. <hr/>
Course Policies and Procedures	<p>Appropriate classroom and on-line behavior is implicit in the CCC Honor Code. Such behavior is defined and guided for the protection and rights of all students and faculty. The classroom environment must be courteous and respectful, free from distractions such as late arrivals, early departures inappropriate side conversations or any other behaviors that might disrupt instruction and/or compromise students' access to their Cedar Crest College education. In all aspects of the on-line course, it is expected that the student will complete his or her own work and maintain</p>

confidentiality regarding course content.

Honor Code: Please refer to your Custom's Book for a detailed explanation of the Cedar Crest College Honor Policy. It is your responsibility to be familiar with this policy. You are expected to maintain the integrity of all exams and written work. Please Note: Plagiarism is the presentation of someone else's ideas or language as one's own. Examples of plagiarism include turning someone else's paper or work under one's own name with or without additions or modifications, downloading and turning in a paper from the Internet including concepts, phrases, sentences, or paragraphs from print or electronic sources - whether verbatim or paraphrased- in one's own paper without proper attribution. Violations of the Honor Code may result in failure of the course.

Students with a documented disabilities who may need academic accommodations should discuss these needs with their professors during the first two weeks of class. Students with disabilities who wish to request accommodations should contact the Advising Center.

Grading Policy

Tests will be objective. The format will include multiple choice, true-false, matching and short answer. Tests must be taken as scheduled unless advance arrangements have been made for alternative grading. All exams are to be taken when scheduled. Exams not taken on time will result in a ZERO for the exam. The FINAL EXAM is scheduled by the registrar's office. No student is permitted to take any exam ahead of schedule including the FINAL EXAM.

There are two shorter assignments to be completed in this class. Each one may be 1-3 pages and the grading criteria can be found in Session 1. Topics must be done from the list provided unless instructor permission to research another drug has been given. The assignments must be done in APA format and examples of each assignment is available in document sharing. Assignments are due when posted by 5 pm, any assignment completed after this, even on the same day will be considered late. TEN points will be deducted from the grade for each day late.

The Drug Calculation Test is a take home test given out the first day of class to be completed and returned on the due date. TEN points will be deducted from the grade for each day late.

Please refer to your Student Handbook for a detailed explanation of the Cedar Crest College Honor Policy. It is your responsibility to be familiar with this policy. You are expected to maintain the integrity of all examinations and written work. Violations of the Honor Code will result in FAILURE of the course. Plagiarism of another's work, including internet resources is considered a violation of the Honor Code. A copy of the Student's Handbook can be obtained from the Dean of Student Affairs Office, PLAGARISM STATEMENT: "It is dishonest to present oral or written work that is not entirely the student's own. Any language

taken from another source, whether individual words or entire paragraphs, must be placed within quotation marks and attributed to the source, following APA format. Paraphrased material from an outside source must also be attributed." (Student Handbook, CCC. 2002-2003)

A cumulative final exam will be scheduled during final exam week. The final will be objective in format.

Participation will be graded according to the threaded discussion participation. If all 7 threaded discussions have been completed the grade will be 100%. For each threaded discussion not completed the attendance graded is lowered by 5 points. Attendance at the orientation and The mandatory lab is required unless previous arrangements have been approved by the professor.

A minimum grade of C (73% or better) is required for passing in all Nursing courses.

55%	Five Exams each 11%
15%	Pharmacology Assignments (7% each)
20%	Final Exam
5%	Drug Calculation Test
5%	Participation

Grading Scale

F	<60
C	73-76
A	93-100
C+	77-79
C-	70-72
B+	87-89
B-	80-82
B	83-86
D	60-69

A-	90-92
