Description: This course will provide you with information and skills that will help you develop a portfolio, and select and pursue a career in psychology or a related field. This course should be taken in your sophomore or junior year.

Required Packet: A packet of materials (handouts, activities, assessments) will be distributed in class. These materials will be 3-hole punched and should be placed in a 3-ring binder to start your portfolio.

Course Objectives: 1) To learn more about oneself and explore career interests, 2) to develop a personal academic/career development plan and portfolio; and 3) to prepare for graduate study and/or employment.

Course Outcomes: 1) Knowledge of career options. 2) Knowledge of one’s personality, values, preferences, and interests. 3) Knowledge of resources available for graduate study and job searches. 4) Ability to write personal statements, resumes, etc. clearly and effectively. 5) Ability to assemble portfolio with personal and professional information. 6) Skill to present self effectively in interview situations.

Academic Conduct: All Cedar Crest College students are expected to be familiar with and fully supportive of the college’s policy regarding the honor code and academic integrity (e.g., cheating on tests, copying other students’ work, plagiarism). Any violation will be dealt with according to CCC procedure. Also, appropriate classroom behavior, free from distraction (e.g., late arrivals, early departures, inappropriate conversation), is expected. Care must be taken to protect the rights of all students and faculty to enjoy a courteous, respectful classroom environment. See CCC’s Student Guide for more information regarding the enforcement of these policies. Students with documented disabilities who may need academic accommodations should discuss these needs with me during the first two weeks of class. Students with disabilities who wish to request accommodations should contact the Advising Center.

Psychology Department Attendance Policy: The Psychology Department is committed to the principle that regular and punctual class attendance is essential to the students' optimum learning and successful academic achievement. Regular class attendance is a student obligation, and students are responsible for all work, tests and written assignments. Therefore, students are expected to be present for all class sessions. The Psychology Department’s attendance policy recognizes that there will be times when attendance at class is not possible. You may think of the policy as being similar to the
type used in the corporate world where each employee is given a certain number of “personal/sick days.” Based on the number of regularly scheduled class meetings, you will be allowed a certain number of absences (see below) with no consequences, no questions asked. In other words, there is no distinction between excused and unexcused absences. You are of course responsible for anything covered during those missed classes, and for submitting assignments on time, regardless of whether or not you attend. Beyond the allowable number of absences, there are consequences that will adversely impact your grade, much as missing too many days of work can adversely impact your employment status. Above all else, you should carefully consider each decision to not attend class, as once your allotted absences have been used, they are gone. It is important that students arrive for class on time. Late arrivals are very distracting, not only to the instructor, but also to fellow students. Repeated late arrivals are not acceptable and will be addressed on an individual basis. It is each student’s responsibility to understand this policy and to keep track of absences throughout the semester.

Application to this Class: Formal attendance will be taken during all class sessions. This class meets once per week (14 class meetings). As such, you may miss 2 classes without penalty. If you miss 3 classes, your final grade (cumulative percentage of points) will be lowered by 5%. That means that if you have earned 84% of the available points in the class, which is a B grade, you would be lowered to 79%, which is a C+. Likewise, if you have earned 77% of the points available, the penalty would take you down to 72%, which is a C-. As a reminder, a C grade (73%) is required in all Psychology courses. If you miss 4 classes, you will receive a failing grade for the course. If you miss four classes, you have missed approximately 25% of the class meetings.

Assignments: Each week, you will be given one or more assignments for the material covered. The assignments will consist of self-assessment exercises, and preparations for your portfolio. Instructions for each assignment will be distributed in class at the appropriate time. You will receive up to 20 points for each group of satisfactorily completed assignments (i.e., 1 group per week). There are 13 groups of assignments so assignments will be worth a total of 260 points. Late assignments will be penalized 10 points for each day late.

Student Evaluation: Your grade in this course will be based on a total of 260 points, based on the assignments given.

The final letter grade will be assigned according to CCC’s protocol:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
